

Solutions Brief | Convenience Stores

Market-leading solutions for easy data capture to help boost revenue

For national convenience-store chains, local mom-and-pop shops, and everything in between, investing in digital technology is the key to triumphing over back-office backlogs, inventory issues, and shifts in product sales, trends, and shopping patterns.

Fujitsu's market-leading imaging hardware and software enables convenience stores and other retailers to convert paper documents into electronic records—and use that data to help maintain appropriate product inventory, protect employees' personal information, expedite purchases, and more.

shaping tomorrow with you

Market-leading solutions for easy data capture to help boost revenue

Easily digitize for a competitive edge

Running a convenience-store business involves more paperwork than ever before—there are invoices to track, inventory reports to assess, operating permits to acquire, HR records to file, and documents to share with regional management or other branches. By using high-quality Fujitsu imaging solutions, franchise owners, regional managers, and store managers are able to:

- Accelerate customer response, order processing, and inventory management
- Scan invoices, HR onboarding documents, business transactions, etc.—directly into an EMS for access by corporate, if needed
- Improve the accuracy of record keeping—reducing duplications, misfiling, or loss
- Produce exceptionally clean images—even of hard-to-capture items like packing slips or delivery documents
- Maintain records that show compliance with HR regulations for hiring practices
- Free up space for retail purposes used by filing cabinets or stored documents

Scale the solution to fit your needs

Fujitsu provides convenience stores with easy-to-use digital-document automation technology for swift and accurate data capture through scalable and adaptable solutions. To meet the unique needs of your store, or stores, we recommend the following models:

Fujitsu fi-800R Image Scanner

An ultra-compact scanner that fits into tight spaces and doesn't occupy valuable retail space

- Eliminates the need for multiple scanning devices
- Feeds paper two ways:
 - » U-turn Pass—perfect for batch scanning various-sized documents
 - » Reverse Feeding—flawlessly scans thick documents such as IDs and passports
- Reduces misfeeds and skewed images with Active Skew Correction—an industry first!
- Improves scan-operator efficiencies
- Scans passports faster than competitive scanners and requires no carrier sheet
- Improves scanned images and OCR performance with industry-recognized PaperStream software

Save time, costs, and space by scanning:

Invoices from incoming shipments or orders

Employee applications and resumés

FDA inspection reports

IDs

Incident reports

Inventory reports

Packing slips

Payroll forms

Tax documents

Time cards

Workplace permits

Market-leading solutions for easy data capture to help boost revenue

Fujitsu fi-7160 Document Scanner

The #1 market-leading workgroup scanner featuring a powerful scanner engine and processing software

- Lets you get more done in a day with fast scan speeds and reliable feeding
 - » Scans 60 ppm/120 ipm
- Includes paper-feeding technology that practically eliminates misfeeds and paper jams
 - » Intelligent multi-feed detection recognizes labels and sticky notes and won't stop scanning
 - » Uses ultrasound and sensors to detect misfeeds
- Scans various-sized documents up to 220" long and thick documents including IDs
- Improves scanned images and OCR performance with industry-recognized PaperStream software
- Keeps scanned projects moving and on track with stable feeding and high-quality materials

ScanSnap iX1500

Capable of digitizing large volumes of papers quickly, a fan favorite for its simplicity and intuitive design

- Has an intuitive 4.3" touch screen that can be customized for various tasks and users
- Allows up to 30 pre-configured profiles, optimizing scan workflow
- Lets you scan wirelessly to PC, Mac, iOS, or Android mobile devices
- Prints batches of documents in color fast
 - » 30 ppm color scanning
 - » 50-sheet Automatic Document Feeder (ADF)
- Features smooth scanning of any document with Manual Scan and Receipt Guide
- Keeps images clean with Dust Detection and Streak Reduction
- Easily manage, edit, and utilize data from documents, business cards, and receipts with ScanSnap Manager
- Enables device-less scanning with ScanSnap Cloud
