K-12 Education

Streamline and stay organized this school year with ScanSnap

FUJITSU

As an educator, you are likely heading back to the classroom or teaching from home, so make sure you have the best tools for the job. For educators who need to facilitate student classwork, Fujitsu's industry-leading document scanning solutions provide the most efficient way to digitize, organize and share student documents across teachers, parents, students and school administrators. Fujitsu ScanSnap scanners make it quick and easy to digitize, organize, and share documents across the education environment—from the front office to the classroom, or with students learning remotely.

ScanSnap

Fujitsu Imaging Solutions provide superior feeding performance, industry-leading image quality, and operational ease-of-use to ensure scanning projects go smoothly and quickly to get the most important part of a document—the data.

Scan everything from individual or batched documents to textbooks and oversized artwork. Our scanners integrate with popular platforms like Google and Microsoft, so teachers can connect physical and digital documents easily. School administrators can simplify processes by digitizing student records for upload to document management or student information systems.

Not just scanning—smart scanning

Adding a ScanSnap to your desk or office makes it easy to stay organized, with less paper-shuffling.

- Quickly and easily scan, digitize, and organize documents—no need to call IT
- Automatically recognize and organize by type: documents, business cards, photos, or receipts
- Easily share documents between district offices, teachers, offsite administrators, and parents
- Reduce paper processing and preparation time
- Produce exceptionally clean images—better than the original
- Compress digital file size while eliminating paper storage space requirements
- Maintain an organized and productive work space

Integrates with: Drive OneDrive

Save paper and space by scanning

What we recommend for grade schools

Whether educators are working at home, in the classroom or office, or a mix of both, we've got a scanner designed to fit their environment and unique needs.

ScanSnap iX1500
Everyday scanning needs for the classroom, front office, or teaching from home

- Wi-Fi connectivity—scan directly to cloud applications
- Fast scanning—30 ppm, perfect for batches of various documents
- ScanSnap Home—inbox software cleans up, classifies, and organizes images

ScanSnap iX100
Mobile scanning from anywhere

- Lightweight, mobile scanner for on-the-go use
- Duplex scanning—scans both sides at one time in less than six seconds
- Scan wirelessly to PC, Mac, and iOS or Android mobile device

ScanSnap SV-600
Student artwork, books, magazines, newspapers, historical documents

- Scans books and oversized documents
- Automatically flattens and corrects the curve distortion from book seams
- Contactless scanning—won't damage fragile or textured documents
